LIUGONG METSO

LM-I1213S

Tracked impact crusher with screening system

MODEL YEAR

2021

OPERATING HOURS

380 h

Model illustration. Series specifications shown; confirm the individual machine.

KEY SPECIFICATIONS

Crusher type

Impact

Undercarriage

Tracked

Process

Crushing + screening

Oversize handling

Recirculation

APPLICATION & CONFIGURATION

Integrated processing

Crushing and screening in one mobile plant, with oversize recirculation.

Mobile operation

A tracked layout for projects that require equipment relocation.

+7 707 288 8133

TEREX FINLAY

J-1160

Tracked jaw crusher for primary crushing

MODEL YEAR

2018

OPERATING HOURS

5,000 h

Model illustration. Series specifications shown; confirm the individual machine.

KEY SPECIFICATIONS

Feed opening

1,000 × 600 mm

Feed hopper

5 m³

Crusher drive

Hydraulic

CSS adjustment

Hydraulic

APPLICATION & CONFIGURATION

Primary crushing

For natural stone, demolition material and recycling applications.

Chamber control

Reverse operation and hydraulic adjustment of the closed-side setting.

TEREX FINLAY

C-1540

Cone crushing with screening and recirculation

MODEL YEAR

2018

OPERATING HOURS

5,000 h

C-1540RS model shown with recirculation. Confirm the offered machine configuration.

KEY SPECIFICATIONS

Configuration

With recirculation

Cone head diameter

1,000 mm

Feed hopper

5 m³

Process

Crushing + screening

APPLICATION & CONFIGURATION

Closed-circuit layout

Oversize material returns to the cone crusher for further processing.

Onboard screening

Cone crushing and post-screening combined in a single plant.

KEESTRACK

C6

Tracked mobile classifying screen

AVAILABLE YEARS

2019 / 2020 / 2021

OPERATING HOURS

4,000-6,000 h

Model illustration. Series specifications shown; confirm the individual machine.

KEY SPECIFICATIONS

Screen size

4,500 × 1,800 mm

Number of decks

2 / 3

Feed hopper

8 m³

Model years

2019 / 2020 / 2021

APPLICATION & CONFIGURATION

Multiple years available

Choose from 2019, 2020 and 2021 machines. Hours vary by individual unit.

Screening after crushing

Classifies crushed material into finished aggregate fractions.

ASK FOR PRICE & MACHINE DETAILS

+7 707 288 8133

METSO

ST4.8

Lokotrack triple-deck mobile screen

MODEL YEAR

2019

OPERATING HOURS

6,000 h

Model illustration. Series specifications shown; confirm the individual machine.

KEY SPECIFICATIONS

Screen dimensions

5,480 × 1,520 mm

Number of decks

3

Feed hopper

7.5 m³

Finished products

Up to 4 fractions

APPLICATION & CONFIGURATION

Three decks, four fractions

Separates aggregates into different saleable size fractions.

Flexible application

Operates as a standalone screen or as part of a crushing line.
